CITY OF  
**GOLDCOAST™**

10 May 2016

Dear [REDACTED]

**BLISTER ISLAND REMOVAL REQUEST – OCEAN PARADE, BURLEIGH HEADS**

I write to seek your feedback on the proposed removal of the two concrete islands in Ocean Parade at the corner of Reserve Street, Burleigh Heads.

I have received a request to have the two concrete islands removed. It has been reported that the island on the northern side of Ocean Street impacts on the intersection as vehicles waiting to turn right from Reserve Road need to wait, as they are unsure if vehicles heading eastbound are turning left or going straight ahead. As vehicles negotiate the island, it appears their left turn indicator turns off.

The island on the southern side impacts on larger vehicles and creates a noise issue.

The extent of the proposed works will be to remove the two kerbside islands and signs and to correct the existing line marking. This will assist with traffic safety and flow.

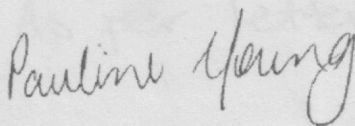

All required construction work would take place within Council property.

The attached Survey seeks your comment and feedback on the proposed works.

It is Council's intent to gain a better understanding of residents' opinions and needs before making any changes. Please take the time to advise me of your views. Should you have any questions please contact my office on 5581 6382.

Please return your responses in the mail using the attached reply paid envelope by **6 June 2016**.

Yours sincerely

**PAULINE YOUNG**
