BO

 I have read all the info you provided. Hence my comment about stopping the rat running a straight through St isn't rat running. Opening up Tabilban St only shifts the problem and creates a bigger one as you would then open it up to trucks and buses and I don't support that. I imagine that's why it was closed before. As I said you won't like the answer, it's a council road and as such I forwarded your email to Daphne McDonald who has actioned it with council.

Kind regards

Michael Hart

Hi Michael

Thanks for your prompt response, however it is clear to me that you have not gone over all the documentation nor the proposal based on your response. I would like you to read all the supplied information I have previously attached to my email and you will see that Pauline's response was incorrect.

Our narrow little street is NOT a collector road, and allowing the amount of traffic that has been flowing through our street is actually against State guidelines.

We have been proactive as a community and come with a solution which you

have not acknowledged, why?

Responding with "I know that's not what you want to hear sorry" is frankly not what I expected from an MP. We all know there is a simple solution.

This problem has gone on for far too long and has now gotten out of control.

We need your support in taking this matter to a resolution favourable to our community especially with the light rail coming to Burleigh.

Regards

Thanks for your email that area has been a problem for a number of years and I have had many discussions with Pauline Young and before her Greg Betts. Pauline's letter covers the issues fairly well and I really don't have anything I can add to it as those roads are local roads they fall under the council. The only real solution would be to stop the availability to rat run through there altogether but that's just not feasible. I know that's not what you want to hear sorry.

State controlled roads info can be found here. <https://www.tmr.qld.gov.au/Travel-and-transport/Maps-and-guides/Queensland-State-controlled-roads-and-region-maps>.

I have also ccd Daphne McDonald into this email as these streets now reside in her local council area.

Kind regards

Michael Hart

Re: RESERVE STEREET BURLEIGH HEADS 4220

I am just touching base with you on the registered letter sent to you dated 18/07/2020 by myself and family [REDACTED] and concerned neighbours.

If we can help with any other information please let us know, as we need something happen ASAP.

We are also constantly updating the website [REDACTED] of heavy trucks using Reserve Street which has multiplied expedientially.

I will also send all documents just in case.

Regards

[REDACTED]
