T

Dear [REDACTED]

Reference is made to your email to Luke Wallace requesting further information on the theory behind the functional road hierarchy classification for Collector Roads.

In this regard, the theory behind functional road hierarchy classification is outlined in the document titled *Austroads Guide to Traffic Management Part 4: Network Management Strategies*.

Classification systems vary from one road authority to another and are developed by the road authority's traffic engineers and transport planners.

Kind regards

Transport and Traffic Branch
